Software Developer | Full-Stack Developer

SUMMARY

Computer Science & Engineering graduate (CGPA 7.16/10) with hands-on experience across the MERN stack, SQL/MySQL, and data analytics (Excel, Power BI, Python). Built and shipped full-stack applications including a security-focused academic project with a published research paper on secure authentication and intrusion detection for fog computing. Seeking an entry-level Software Developer or Full-Stack Developer role to apply strong fundamentals in web development, databases, and problem-solving.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C, SQL
Frontend: HTML5, CSS3, React.js
Backend: Node.js, Express.js, Flask
Full Stack: MERN Stack
Databases: MongoDB, MySQL
Data Analytics: Excel, Power BI, Python, SQL, Data Visualization
Tools & Core: Git, GitHub, Microsoft Office, Problem Solving, Database Management, Cybersecurity

EXPERIENCE

Data Analyst Intern — Unified Mentor *Sep 2025*
Remote

- Built data-analysis workflows using Excel, SQL, Power BI, and Python to clean, structure, and explore datasets.
- Created visualizations and dashboards to communicate analytical findings and support data-driven decisions.

ACADEMIC PROJECTS

Secure Key Agreement & Authentication Mechanism with IDS for Fog Computing *Dec 2025 – Apr 2026*
Java Full Stack • Cybersecurity • Intrusion Detection System

- Developed a Java full-stack web application addressing secure communication challenges in fog computing environments.
- Designed a secure key agreement and mutual authentication protocol using ECC and AES to protect user–fog node communication.
- Built an Intrusion Detection System (IDS) using an OS-RVFL model to monitor network activity and flag malicious behavior.
- Applied backend development, relational database design, and core cybersecurity principles across the stack.

Personal Portfolio Website *Jun 2025 – Nov 2025*
Python Flask • HTML • CSS

- Built and deployed a responsive portfolio site to showcase projects, technical skills, and education.
- Implemented dynamic routing, reusable HTML/CSS templates, and a working contact form for inquiries.

PUBLICATION

Secure Key Agreement and Authentication Mechanism with IDS for Fog Computing *Mar 2026*
International Journal of Versatile Research and Analysis (IJVRA), Volume 4, Issue 3

- Co-authored research combining Elliptic Curve Cryptography (ECC), AES, and an OS-RVFL-based IDS for lightweight security, mutual authentication, and intrusion detection.
- Co-authors: V. Srinivas, T. Hari Krishna, N. Chandra Sekhar.

EDUCATION

Bachelor of Technology in Computer Science & Engineering *2022 – 2026*
Guru Nanak Institutions Technical Campus, Hyderabad, India (Affiliated with JNTUH) • CGPA: 7.16/10

Higher Secondary – Computer Science *2020 – 2022*
Greenland Secondary School, Biratnagar, Nepal • GPA: 3.25/4.00

CERTIFICATIONS & TRAINING

- Data Analyst Intern — Unified Mentor (2025)
- Virtual Vista 3.0 — IEEE Computer Society, GNITC (2026)
- Web Development Course — STP Computer Education (2024)
- Data Science Using Python Workshop — Brainvision Solutions India Pvt. Ltd. (2024)
- Python — Kaggle (2023)
- Data Science Career Master Class — Physics Wallah (2024)
